WE ARE THE GIRL GENERATION
Together we will end FGM in one generation

The Girl Generation is a social change communication initiative providing a global platform for galvanising, catalysing and amplifying the Africa-led movement to end FGM.
WE ARE THE GIRL GENERATION

We believe that together we will end FGM in one Generation. Join us?

The Girl Generation is a global collective of members and partners brought together by a shared vision – that together we can end FGM in a generation.

We want to see women and girls living healthy, empowered lives, with their fundamental human rights protected and with opportunities to realise their potential.

We believe that communication lies at the heart of this transformation. Communication has the power to influence the very fabric of society.

Female Genital Mutilation is a harmful practice & a form of violence against women & girls

- includes all procedures that involve partial or total removal of the external female genitalia, or other injury to the female genital organs for non-medical reasons
- is held in place by social norms, the invisible rules which govern behaviour
- is a global issue and FGM is everyone’s issue

We are building a critical mass for change to unlock commitments and to increase resources to scale up efforts to end FGM.

We support grassroots organisations & youth networks to strengthen their communications on FGM.

We catalyse and amplify the voices of the vibrant and active African movement.

Together we can end FGM. Be part of The Girl Generation.
